Quote by James Madison:

“What is Government itself, but the Greatest of all reflections on Human Nature? If men were Angels, no Government would be necessary, If Angels were to Govern men, neither external nor internal controls on Government would be necessary.”

I, Harold Ayala, Oppose H.B. No. 6355 Title: An Act Concerning Risk Protections Orders or Warrants.

May I remind our legislators of the 14th Amendment, where it states: That no state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States. Nor shall any state deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws. H.B. No. 6355 would be doing just that, denying the protection of the law to the good people of CT. Risk protection orders and warrants based on hearsay evidence is one sided. It's also not needed, especially when no crime has been committed. What ever happened to innocent until proven guilty? Or are we throwing away the old government and making a new one?

Below are some examples and the aftermath of this law in effect in other states.

Action of a No-knock Warrant: Louisville, Kentucky Police kill Breonna Taylor 26.

Gun seizure under extreme-risk law: 1. Maryland police leaves suspect dead in the 100 block of Linwood Ave. 2. Anne Arundel County police serving red flag protective order kills Ferndale man after refusing to give up gun. 3. On March 14,2020, Maryland police kills 21-year-old man while asleep, girlfriend injured. 4. Colorado New Year's Eve 2017, Mathew Riehl suffered mental breakdown Riehl had not broken any law, so deputies could only take him into protective custody for mental evaluation. Instead, Riehl barricaded himself, deputy Zack Parrish lost his life that day.

I, Harold Ayala, Support H.B. No. 6491 Title: An Act Concerning non-lethal electronic defense weapons.
